### 2. Log in to the Magento backend

 Disable compilation Click to view details Navigate to System -> Tools -> Compilation.

If Compiler status is Disabled, you can skip to the next step

If Compiler is enabled, disable it.

Compilation		Disable     Run Compilation Process

#### • via filesystem:

On your server, navigate to Magento root folder, then proceed to /var/cache/; delete all the content there.

5. Download the extension package from your account and extract the downloaded archive

6. Copy the content of the extracted archive to your store's root directory

7. Flush store cache again; log out from the backend and log in again.
