Installation

1. Backup your web directory and store database.

[Click to view details](#)

You can make backup copies with any tool you find appropriate

If you are going to use the native Magento backup function, navigate to **System -> Tools -> Backups** and perform **System** and **Database** backups

2. Log in to the Magento backend.

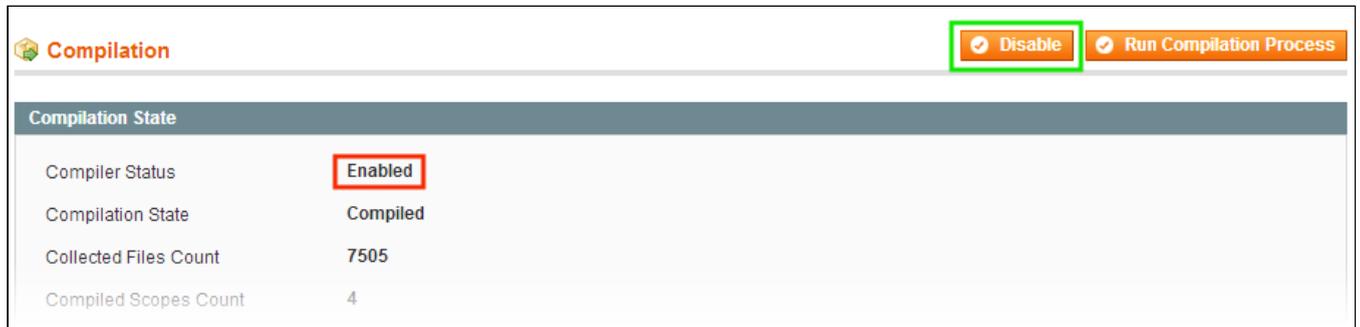

3. Disable compilation

[Click to view details](#)

Navigate to **System -> Tools -> Compilation**.

If Compiler status is Disabled, you can skip to the next step

If Compiler is enabled, disable it.

IMPORTANT: after the extension is installed, you can enable the compilation again; **IT IS CRUCIAL** that you use "Run Compilation Process" function, not just "Enable button"

Compilation Enable Run Compilation Process

Compilation State

Compiler Status	Disabled
Compilation State	Compiled
Collected Files Count	7505
Compiled Scopes Count	4

Installing an extension with the Compilation enabled will result in store downtime.

4. Flush store cache.

Click to view details

You can flush the store cache in 2 ways:

- **via the backend:**

Navigate to **System -> Cache Management** menu, and click **Flush Magento Cache** button

Cache Storage Management Flush Magento Cache Flush Cache Storage

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions Refresh Submit

Cache Type	Description	Associated Tags	Status
<input type="checkbox"/> Configuration	System(config.xml, local.xml) and modules configuration files(config.xml).	CONFIG	ENABLED
<input type="checkbox"/> Layouts	Layout building instructions.	LAYOUT_GENERAL_CACHE_TAG	ENABLED
<input type="checkbox"/> Blocks HTML output	Page blocks HTML.	BLOCK_HTML	ENABLED

- **via filesystem:**

On your server, navigate to Magento root folder, then proceed to **/var/cache/**; delete all the content there.

5. Download the extension package from your account and extract the downloaded archive.

6. Copy the content of installation package folder to your store's root directory.

8. Flush store cache again; log out from the backend and log in again.

Configuration

The extension's configuration options available under **System > Configuration > aheadWorks Extensions > OnPulse**

General

- **Show Statistics for Orders with Statuses** - defines what orders should be processed by the extension;

- **Disable Direct Login Link (Yes/No)** - the extension allows generating direct login link, by disabling this option direct login links becomes unavailable;
- **Show Sales Statistics As (Revenue/Profit)** - defines if the sales statistics should be displayed by profit or revenue data.

General

Show Statistic for Orders with Statuses: Pending, Processing, **Complete**, Closed, Canceled, On Hold [STORE VIEW]

Disable Direct Login Link: No [STORE VIEW]

Show Sales Statistics As: Revenue [STORE VIEW]

Access

- **URL** - in this field user is suggested to specify the login name that will be used to access the OnPulse service;
- **Key** - by clicking 'Generate new credentials' user is given the necessary login key that should be submitted in this field.

Access

URL: ▲ Your login name to access OnPulse service

Key:

Generate new credentials

▲ Each time you reset credentials OnPulse generates new URL, key, direct login and QR code

You can also scan the QR code with your mobile device for instant access to OnPulse statistics.

Troubleshooting

After the extension installation the store gives an error, or blank page, or suggests to start Magento installation procedure.

Change the owner of the extracted extension files to the web server user and set 775 permissions on them. Clear the store cache and try again.

There is no aheadWorks extensions under my configuration section, or having the extension tab clicked I get a blank page, or Access Denied error.

Clear the store cache, browser cookies, logout and login again.

I've set up everything correctly, inserted the HTML code but there is nothing on that page.

Clear the store cache, clear your browser cache and domain cookies and refresh the page.

My configuration changes do not appear on the store.

Clear the store cache, clear your browser cache and domain cookies and refresh the page.
